

Acculine One-Stop-Purchase Solution Application

Power Tool Manufacturing Industry

Acculine aims to provide One-Stop-Purchase solution to large manufacturers in the world who are outsourcing over 75% component parts to China. Mainly, Acculine encompasses manufacturing processes such as die casting, machining, stamping and punching, sintering, and plastic injection. Purchasing from Acculine is cost-effective and efficient, instead of from many manufacturers who are responsible for only single one production process respectively.

Power tool manufacturing industry is one of our One-Stop-Purchase solution applications, where a large proportion of components are stampings and die castings.

Schematic of a typical angle grinder showing main components

1, rear plastic housing; 2, main body plastic housing; 3, front housing; 4, bearing housing.

Manufacturing processing involved:

Parts 1, 2: Plastic injection;

Parts 3, 4: Die casting.

Acculine Precision Manufacturing Company is a Chinese professional supplier of mechanical component parts including aluminum die casting, zinc die casting, precision machining, sheet metal stamping, sheet metal punching, sheet metal deep drawing, plastic injection, metal sintering and plastic sintering, etc.

Besides our leading knowledge about products and production, another important power which help Acculine outperform the Chinese competitors is our strict quality management system. We have been in long term cooperation with many professional and demanding customers in Europe and North America many years. Through years of communication and emulation, Acculine developed the unique quality management based on western mentality of quality and service. The system ensures Acculine's leadership in the market and customers' needs to be met constantly. For details of the quality management, please visit
