Acculine Precision Manufacturing Company(www.acculine-mfg.com) is a Chinese professional supplier of custom mechanical component parts including aluminum die casting, zinc die casting, precision machining, sheet metal stamping, sheet metal punching, sheet metal deep drawing, plastic injection, metal sintering and plastic sintering, etc.

Milling and Turning, or CNC milling and turning will fall in this process, or manual milling is the process used to produce prismatic components. A rotating cylindrical cutter with multiple flutes, commonly called an endmill, traverses along multiple axes.

Machining Sub-Processes operated

turning,
milling,
reaming,
screw/swiss machining, and
simple assemblies.

Materials used

Aluminum, brass, copper, steel

Industries served

automotive, aerospace, home appliance, power & hand tools, pumps & valves filtration and separation
medical, food, chemical, oil, refinery, sports vehicles, etc.

Acculine Precision Manufacturing Company

Room306, Bldg#22, Yaduxincun District

888# Yinxiandadao Ave West, Ningbo
